

Leadership Cloudcroft

Developing Community Champions

A new solution for an old problem

The Challenge

Dependence on Volunteers

Cloudcroft relies on volunteers for essential roles in government, schools, library, fire department, and community committees.

Lack of Formal Training

There is no formal system to identify or train these leaders, resulting in unprepared volunteers and oversights.

Volunteer Burnout

Without proper systems, we experience burnout and high turnover, affecting the efficiency of community services.

Weak Networking

There is weak networking across groups, exacerbating coordination and communication issues.

Leadership Cloudcroft Goals

Identify and Prepare Leaders

Help develop community champions to lead civic, business, and community positions.

Practical Knowledge of Local Issues

Gain practical, real-world knowledge of local issues.

Network of Engaged Members

Foster a network of informed and engaged leaders who collaborate and support each other. Fewer silos.

Encourages Active Participation

Get people off the sidelines. Empower those who want to help make Cloudcroft healthy and strong.

Program Overview

Program Duration

The program spans from June to October 2025, featuring six full-day classes held monthly.

Expert Speakers

Sessions will feature presentations and insights from expert speakers sharing lessons learned.

Interactive Discussions

Classes will incorporate interactive discussions and meaningful conversations.

Site Visits and Group Projects

We will make site visits, such as a tour of the Village Water Systems, and engage in group projects to enhance practical application.

Curriculum Topics

Governance

How Cloudcroft is organized as a local government. Roles and responsibilities. Lessons learned from past mistakes.

Infrastructure

Delivery and maintenance of Water, Roads, Utilities, and more

Education

What it takes to provide a first-class educational experience.

Fire Safety

Protecting people and property from fire risk. Preparation and plans.

Economic Development

How can we improve tourism, encourage new businesses, and address the workforce's needs?

Healthcare

Challenges of getting quality, timely care in the region.

How to Apply
