

Leadership Cloudcroft

A new initiative to develop volunteer leaders prepared to take charge in our mountain village. We aim to cultivate the next generation of community champions ready to address Cloudcroft's unique challenges.

The Problem

Volunteer Dependency

Our mountain village relies on volunteers to lead local institutions and committees.

No Formal Training

There is no structured effort to identify, recruit, or train these critical leaders.

Lack of Preparation

Most take office with no experience, leading to mistakes, burnout, and missed opportunities.

Outgoing officers rarely debrief incoming ones. Public service institutions siloed, little networking and coordination.

Leads to Failure

In just two years, we've had 3 mayors, 5 clerks, police force at 25-50% staffing, four library directors, and the library remains shuttered since Financial reports not filed with governmental agencies, payroll taxes not paid. Failed audits.

Our Goals

Identify Leaders

Find potential leaders ready to serve in volunteer, civic, and community roles.

Provide Knowledge

Offer practical insights about issues facing the Village. Learned lessons from people who have held leadership roles.

Create Connections

Build an invaluable educational and networking resource. Foster teamwork for these future leaders.

Curriculum Focus

Governance

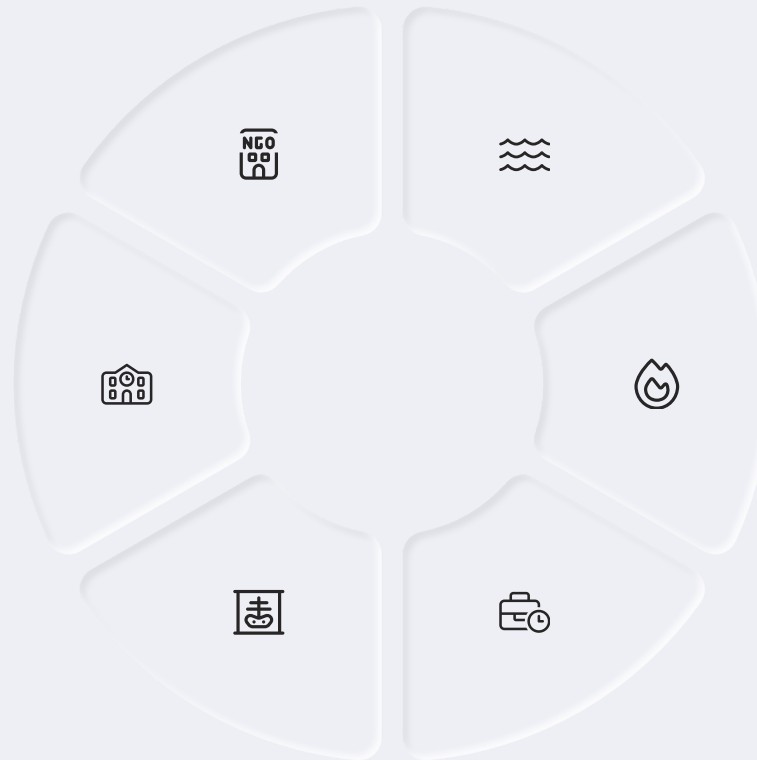

Village administration and public service

Schools

Education and youth development

Healthcare

Rural health services and access

Infrastructure

Water, wastewater, and public facilities

Fire Safety

Prevention and emergency response

Economic Development

Supporting local business growth

Our Ask

We're seeking funding to...

1 **Compensate time investments**

Faculty stipends and participant scholarships.

2 **Drive Awareness**

This will also cover marketing, materials, and community outreach to raise awareness and engage participants.

3 **Make Field Visits**

Importantly, we want to provide opportunities for field visits so participants can see public works projects up-close.

4 **Document the Workshops**

And we plan to document the journey through journalism, to share the stories and experiences.

5 **Deliver a Meaningful Experience**

These elements are critical to the success of our program and ensuring a meaningful experience for everyone involved.

Why the Reader Can Do It

- **3,000 engaged subscribers** who value our content.
- **11,000 followers on Facebook**
- Our readers **trust us** to provide valuable, actionable information. They see us as an authoritative source they can rely on.
- We know **how to execute**
