

Cloudcroft's civic fabric is unraveling.

In just two years, we've had 3 mayors, 5 clerks, police force at 25-50% staffing, four library directors, and the library remains shuttered since November 2024.

Our community institutions are crumbling—and they rely on volunteers to survive.

Leadership failures jeopardize everyone on the mountain.

The Village council, mayor, school board, PTO, fire and EMS, water boards—all run by volunteers.

When leadership fails, services falter. The stakes are high in every household.

Leadership Cloudcroft: A community-powered solution.

We're building a volunteer leadership pipeline with:

- Expert panels & field visits
- Peer networks & mentorship
- Reporting that reinforces every lesson

It's leadership education, rooted in journalism.

We need support to grow the next generation of local leaders.

We're seeking funding for:

- Field visits & transportation
- Faculty stipends & participant scholarships
- Marketing, materials & community outreach
- Journalism that documents the journey

This is an investment in resilience.

Without action: burnout, chaos, collapse.

With Leadership Cloudcroft: a civic comeback.

We cultivate leaders who are:

- Trained
- Connected
- Accountable
- Ready

This program builds the capacity our community urgently needs.

Cloudcroft Reader drives community forward.

We're already doing the work:

- 3,000 email readers
- 10,900+ social followers
- Trusted reporting that moves people

We don't just tell the story. We mobilize the village.
